TEST PREP PROGRAMS

In a small-group environment or with one-on-one tutoring, our highly qualified instructors and tutors help students improve the specific skills assessed, memorize commonly tested vocabulary words, focus on key concepts, and learn tactics essential for success. By using diagnostic exams, paying careful attention to time constraints, and giving students important test-taking strategies, we do our best to simulate actual test conditions. We provide students with a broad and challenging range of course materials, including practice problems for each skill set, practice tests, and assessment techniques.
