## CUSTOMIZED GIFTED PROGRAMS

We offer stimulating and dynamic programs, which focus on the unique concerns and interests of gifted children. Students learn at an accelerated pace and are grouped with other gifted children. All academic subjects, languages and special programs are customized: Chess, Cartooning, Magic, Anime, Fashion Design, Drama, Dance, and more!

We welcome gifted and talented students with learning challenges. We mobilize strengths, build self-confidence and improve performance.

Small group customized programs have a student-to-teacher ratio of 3 to 1. After registering, please complete our online questionnaire. This will help us tailor our program to meet your child's needs.

### Language Immersion

Spanish, French, Japanese, Chinese or English (ESL). All other languages are under *Individualized Programs*. Using TPR (Total Physical Response), the world's premier language teaching method, students utilize all of their senses to learn in a natural way.

### Empowered Learning

Students learn time management, organization and study skill. Based on an assessment of learning styles, study skills and techniques are customized for each student. This program helps in many life endeavors beyond school work.

### Jump Start Back-To-School

Get a jump on the upcoming school year by reviewing the previous year's material and preparing for next year's curriculum. A great way to master academic skills!

### Singapore Math

## INDIVIDUALIZED PROGRAMS

This is an exciting program that is designed for your child from questionnaires and parent/student interviews. Attentive to each student's needs, our staff work one-on-one in any academic subject, foreign language, or other innovative programs. This is an ideal program for special needs children or for students who are advanced in a particular subject for which a group is not available. In addition, it is possible to be part of a small group program and have one staff member assigned to the student at all times.

### Language Tutoring

Tutors can teach every level of language, providing a complete immersion experience. Choose any language!

### Special Talents & Needs

We offer a warm, supportive learning environment for children with developmental and learning difficulties.

### Test Prep

Our tutors assess each student's strengths and weaknesses in order to develop a specialized curriculum to prepare them for tests such as the SSAT, ISEE, PSAT, SAT, SAT II, ACT, AP, IB, GRE, MCAT, LSAT, and more!
